

## ***INTERIM NEWS & COMMENT***

August 2013

*Dr. Phyllis H. Larsen, reporter*

### **BIG CHANGE FOR KENTUCKY MEETING**

If you looked up the cost of attending our AVMHS Fifth Regional Meeting in Kentucky and saw a very high one-day registration fee, and if you are a member of the American Veterinary Medical History Society, **ignore that fee!** An arrangement has been made for members of our Society to register for our one-day meeting at the guest rate of \$35.00, not including food. That one day is Saturday, September 28, 2013.

This how you do it. You simply say that you are a guest of Dr. Pat Kennedy-Arrington, and that you are there just for the one day meeting of the American Veterinary Medical History Society. Either pay the \$35 there, or pay her later. It would be helpful for planning, if you let Dr. Kennedy-Arrington know in advance that you are coming: e-mail [bestvet71@aol.com](mailto:bestvet71@aol.com) or leave a message at her office phone 502-966-4104. This is especially true if you will be planning to stay overnight on Friday or Saturday.

Now that much negotiating has occurred, it is important to have some AVMHS members attending our program on Saturday, September 28. The exact location of the meeting is the Galt House Hotel at 140 North 4th Street in downtown Louisville, Kentucky, right on the Ohio River. The cost of a sit-down, hot luncheon is \$25. However, there are very reasonable places to eat in the neighborhood of the Galt House Hotel.

Of course, we hope that others attending the 102nd Kentucky VMA Meeting & 40th Mid-America Veterinary Conference in Louisville will also come to listen to the day-long program which Dr. Kennedy-Arrington, herself an AVMHS member, has so enthusiastically organized.

**American Veterinary Medical History Society  
Fifth Regional Veterinary History Meeting  
Saturday, September 28, 2013**

### **PROGRAM**

8:15am - 9:15am - *Heritage Veterinary Practices (Hagyard Equine Medical Institute-1876) & History of Kentucky's Equine Veterinary Profession.*

Edward Fallon, DVM, Luke Fallon, DVM & Stuart Brown, DVM

9:15am - 9:45am Exhibit Time

9:45am - 10:45am *The Life and Career of Dr. James Steele: Contributions to Veterinary Public Health and One Health.*  
Craig N. Carter, DVM, MS, PhD, DACVPM

10:45am - 11:45am *Capturing the Past to Inform the Future - "The Anatomy of KVMA's Centennial Book & What We Can Learn From It."* Susan Owens, Editor

11:45pm - 1:30pm KVMA Lunch

2:00pm - 3:15am *2,200 Years of the Evolution of the Study of Veterinary Medicine- The Early history of the Horse Doctor.*  
Power Point Presentation Compliments of Dr. Fred Born.  
Presented by Patricia Kennedy Arrington, DVM and Alice Mills, DVM

3:45pm - 4:30pm *A Brief History: Louisville Zoological Gardens & Zoological Medicine.* Roy B. Burns, DVM

4:30pm - 5:00pm *History of Kentucky's Veterinary Technology Program.* Philip E. Prater, DVM, DACT

## 2014 Essay Contest is Underway

As classes begin at veterinary schools across the country, it is not too soon to begin alerting any students you may come in contact with about the 2014 Smithcors Student Veterinary History Essay Contest. Chair Dr. Russ Currier has set the deadline for electronic submissions on Tuesday, **April 15, 2014**. Details are available on the AVMHS web site at <http://www.avmhs.org>

It should be useful to inform students that in 2014, as in 2013, the Elizabeth Atwood Lawrence Prizes for winners in the contest are more than in the past. The first prize is \$1200; the second \$1000; the third \$800; and a fourth \$500. In addition there is \$1000 for a winner who can attend and speak at the Society's meeting during the AVMA convention.

Essay Contest Chairman Russell Currier is presently conducting a survey of recent past essayists, whether or not they won any prizes. It is part of an evaluation that AVMHS is using to inform the Donaldson Charitable Trust, which is providing the enhanced prizes.

## Many New Heritage Veterinary Practices

Lesley Ann Gentry who chairs the Registry project is proud of all of the new Heritage Veterinary Practices being added and the progress made on the Registry as a whole. It is good to be able to say that a number of new practices have been added to the Registry in recent months. The new practices added to the Registry range in age from 50 to over 100 years old. She is especially proud of a 103 year practice from El Dorado, Kansas. The histories attached to these practices are wonderful to read. She says that "We have come far in the way we practice veterinary medicine ... it is good to remember how it all was back then."

In addition to relying on word-of-mouth or current advertising, Lesley reports that she is now beginning a county-by-county search using information obtained from chambers of commerce to more systematically locate practices in the state of Kansas. As time permits, this search procedure will be expanded to other states. Vicki Croft has volunteered to do the same for Idaho and Washington. Would you like to do it for your state? If so, contact Lesley at [lgentry@nckcn.com](mailto:lgentry@nckcn.com)

Lesley is planning to develop a distinctive graphic icon that Registry practices could post on their web sites. An occasional newsletter for owners of heritage practices and AVMHS members is also in the planning stages.

We are pleased to welcome new Registry members:

*Animal Hospital of Wilkes* (Wilkesboro, NC), Estab. 1958

*Concord Animal Hospital* (St. Louis, MO), Estab. 1959

*El Dorado Animal Clinic* (El Dorado, KS), Estab. 1910

*Holt Veterinary Clinic* (Dallas, TX), Estab. 1946

*McClelland Small Animal Hospital* (Buffalo, NY), Estab. 1880

*Northeast Veterinary Hospital* (Seattle, WA), Estab. 1951

*Park Cities Animal Hospital* (Dallas, TX), Estab. 1939

*Providence Veterinary Hospital & Clinic* (Alameda, CA), Estab. 1947

*Pueblo Small Animal Clinic* (Pueblo, CO), Estab. 1912

*Republican Valley Veterinary Clinic* (Saint Francis, KS), Estab. 1945

*Rose City Veterinary Hospital* (Portland, OR), Estab. 1911

*Seneca Falls Veterinary Hospital* (Seneca Falls, NY), Estab. 1950

Colorado's Pueblo Small Animal Clinic was started by Dr. A.N. Carroll as the Carroll Veterinary Hospital shown in this 1951 photo.

## Veterinary Heritage Delayed

The U. S. Postal Service has not lost your May 2013 issue of *Veterinary Heritage*. Our editor, Professor David Williams, has been overburdened with additional duties for Purdue University as a whole. He has also lacked submitted manuscripts from AVMHS members and others. Even so, he has the issue nearly ready to format for printing soon.

Unfortunately for our Society, it will be Professor Williams' final issue of *Veterinary Heritage*, of which he began as Managing Editor in 1996 and continued as both Editor and Managing Editor in 2006. You will find more about David Williams' loyal service in the *News & Comment* column of that issue when it arrives.

## Multi-Generation Veterinarians

Dr. Peter Poss, President of the Minnesota Veterinary Historical Museum (MVHM), reports on the graduation of a fourth-generation veterinarian in the Tomsche Family of Minnesota. Grant Tomsche received a DVM from the University of Minnesota this spring. He was preceded by his great-grandfather, Emil, grandfather, Edward, and father, Daniel.

In addition to recognizing heritage veterinary practices, the Society is interested in learning about other third, fourth, and possibly fifth or more generation veterinary families anywhere in the country. Please notify the AVMHS Secretary-Treasurer so that we can create an ongoing file of these remarkable families.

## Historical Veterinary Postcards

In 2011, Dr. Ivan Katic published the three issues of his journal *Historia Medicinae Veterinariae* as a single 124-page volume. He invited C. Trenton Boyd, Distinguished Librarian Curator of the Medical & Veterinary Collections at the University of Missouri, to be guest editor and devote the whole volume to Boyd's veterinary-related postcards. A former AVMHS board member, Trenton Boyd now has about 8000 such postcards, over 200 of which are included in this volume.

Your reporter has selected a few of them here, hoping that they will stimulate readers of this *News & Comment* to volunteer to enjoy the journal and write a substantially illustrated review for an issue of *Veterinary Heritage* in the near future. Please volunteer to AVMHS Secretary/Treasurer, Susanne Whitaker, at 607-253-3499 or [skw2@cornell.edu](mailto:skw2@cornell.edu).

Dr. Sass's Veterinary Clinic in Toledo, Ohio, circa 1912, showing the transition from horse to automobile.

World War I postcard issued by The Blue Cross society in England to raise money for veterinary supplies for horses and mules, about 1916. Note the Blue Cross on a box in the lower right.

Examining an aquatic mammal at Marineland, about 1950; Dog soap advertising postcard from England, about 1915.

Copies of this journal are difficult to obtain, but some were printed by the Netherlands Society for Veterinary History for WAHVM's Congress in 2012. Contact VHG at <http://www.veterinaryhistory.nl/>. Trenton Boyd also has a few of them, which he is willing to sell for \$30 each. Please contact him directly at C. Trenton Boyd, P.O. Box 517, Columbia, MO 65205-0517.

## Using the Internet for Historical Research —Images

It has been said that a picture is worth a thousand words. This is as true today as it was years ago. Consequently, images of the past can tell us a lot about the way things were and thus enhance our appreciation of past events, people, and objects.

Be aware of copyright laws regarding rights and protections even though ownership may be difficult to

determine for historical and archival photographs. Depending on intended use, written permission and/or a fee from copyright owners is necessary to publish or otherwise distribute images. Look for pictures that may be unrestricted, in the public domain, or useable according to various Creative Commons licenses.

In searching for pictures related to veterinary history, a number of online sources can be good starting points.

### Google Images

<http://images.google.com/>

Millions of images are collected and presented from a number of different Web sources. Try different combinations or keywords, or consider uploading an existing image to find a match or related pictures.

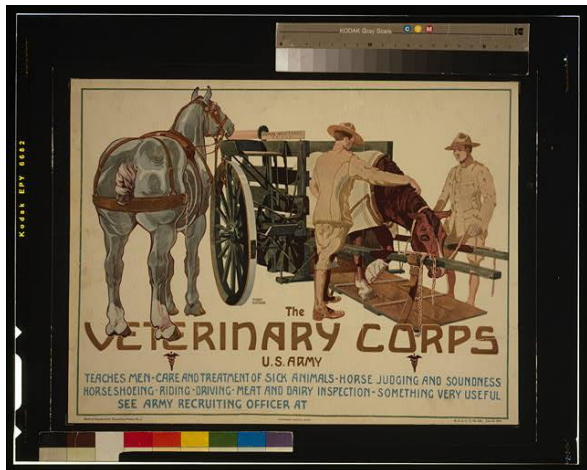

e.g., *horse ambulance*

### Bing Images

<http://www.bing.com/images>

Also enables you to “Search through billions of pictures, photos & images from all over the Web.”

e.g., *Louis Pasteur*

Medical Department, Recruiting Poster No. 2 ; Government Printing Office ; R.S.A.G.O. No. 205. July 14, 1919.  
<http://www.loc.gov/pictures/item/2002722448/>

### Library of Congress Prints & Photographs Online Catalog

<http://www.loc.gov/pictures/>

### Images from the History of Medicine (IHM)

<http://www.nlm.nih.gov/hmd/ihm/>

Includes over 70,000 images from the National Library of Medicine’s History of Medicine Division.

### Wikipedia Commons

[http://commons.wikimedia.org/wiki/Main\\_Page](http://commons.wikimedia.org/wiki/Main_Page)

“Wikimedia Commons is a **media file repository** making available public domain and freely-licensed educational media content.” It includes a database of more than 18 million freely usable media files to which anyone can contribute.

In addition to these general Web-based resources, there are many specialized ones too numerous to mention, including those from historical societies and universities which have digitized some or all of their historical photograph collections, such as Colorado State University.

### In Memoriam

When **Dr. Max J. Herman** died on April 24, 2013, veterinary history lost one of its most determined American preservationists of veterinary medical materials. Born in Selinsgrove, Pennsylvania on December 12, 1931, Dr. Herman earned his veterinary degree from the School of Veterinary Medicine at the University of Pennsylvania in 1959. From 1963 to 1993, he owned a growing mixed practice in which he was joined by one of his three sons. Dr. Herman “retired” in 1993, and later in 1998 became board-certified in Animal Dentistry at the “proud age of 66”. He then proceeded to establish the Animal Dental Clinic and a new career in veterinary medicine.

Dr. Herman, with Dr. Richard Detwiler and others, founded the Eastern Veterinary Historical Society (EVHS) in Pennsylvania. It was largely to categorize and provide a home for the collection of historical veterinary books left by former AVMHS President Robert Shomer.

By the summer of 2004, when the AVMA annual convention was held in Philadelphia, Dr. Herman had provided, in a long extension of his ample garage in Collegeville, a temporary home for the rapidly growing EVHS collection of a wide variety of veterinary medical materials. During the convention he arranged for a school bus to transport a group of AVMHS and EVHS members to see the collection and enjoy various Pennsylvania Dutch refreshments in his garage, while rain poured outside.

Only months later, the EVHS set up the American Museum of Veterinary History (AMVH) at the historic "Ridgewood Farm" in Reading, Pennsylvania, with Dr. Herman as president. He led the Museum through several very successful years of increased collections and community programs. However, the AVMH was unable to maintain the payments on the property, and finally had to pack up its unique collection and store it at Agrarian Country in Middletown, PA near Harrisburg, where a barn was to be built for it. The recent recession brought an end to that plan, and Dr. Max Herman died while still working to find a new home for the American Museum of Veterinary Medicine ... possibly, in Kentucky.

### In Memoriam

One of our long-time members, **Jose V. Tacal, Jr.**, DVM, DVPH, DACVPM, passed away on May 28, 2013. Dr. Tacal had only a few months earlier published his 536-page memoir (see April 2013 *Interim News & Comment*). He intended this memoir "to be my modest contribution to the history of veterinary medicine in the Philippines and veterinary public health in California." Beginning his veterinary career as professor and department chair at the University of the Philippines, he immigrated to America in 1969. Dr. Tacal served as "the first Filipino-American County Veterinarian in the United States," when he joined the San Bernardino County Department of Health in 1970, a position he held for 30 years.

### Report from WAHVM

Our WAHVM Liaison Lesley Gentry reports that WAHVM is pleased to have Roar Gudding as their new secretary which may lead to a revamping of the organization. Roar reports that the 2014 WAHVM Congress most probably will be held at Imperial College, London from September 10<sup>th</sup> to 13<sup>th</sup>. However, he adds that the local organizers for the congress may have to change both dates and place. He will keep Lesley informed of any changes which she will pass on to AVMHS as she hears. For WAHVM

news you can check the new Web site at [www.wahvm.org](http://www.wahvm.org).

### Meeting Calendar

<u>2013</u>	
Sept 28	5 <sup>th</sup> Regional Veterinary History Mtg. & Kentucky VMA & Mid-America Veterinary Conference
Nov 8-9	History of Vet Med, 17 <sup>th</sup> Congress, 2013, Berlin; Early reg. by Sept 15; <a href="https://www.csm-congress.de/congresses/dvg2013/history.php">https://www.csm-congress.de/congresses/dvg2013/history.php</a>
<u>2014</u>	
July 25-29	AVMHS Annual Business Meeting and Program, Denver, Colorado
Sept. tba ?	41 <sup>th</sup> WAHVM International Congress, London, England
Sept. 17-20	World Veterinary Association (WVA) 150 <sup>th</sup> Anniversary, Prague, Czech Republic

### New AVMHS Members

We are pleased to welcome:

*Richard D. Hull DVM* (Springfield, IL)

*Oliver Knesl DVM* (Randolph, NJ)

*Michael J. North* (Bethesda, MD)

Our latest Life Member is:

*Boris Brglez DVM, VC LTC* (Raleigh, NC)

### Comment on "Getting Out the Word"

Have you been talking with others about veterinary history, writing about it, or possibly even chatting with somebody online? If so, please let this reporter know by phone 607-539-6181, by earth mail at 1675 Ellis Hollow Road, Ithaca, NY 14850, or by e-mail. Your experiences may well encourage others to make both veterinary history and our Society better known. She can be reached at [phlarsen@clarityconnect.com](mailto:phlarsen@clarityconnect.com).

For instance, back in 2011, Dr. Howard Erickson mentioned that he had been on two 30-minute programs at a local radio station. The first time he had talked with the interviewer about the history of veterinary medicine at Kansas State University. The second time they discussed the World Veterinary Year, which was celebrating the 250<sup>th</sup> anniversary of modern veterinary

education, beginning with the veterinary college at Lyon, France. He noted that his veterinary history course at Kansas State had been accredited by the AVMA as one of its recognitions of World Veterinary Year. And, that led to his telling how some of his students had written winning essays in our Society's J.F. Smithcors contest.

### Comment on "Sending In the Word"

Have you ever sent in any suggestions or contributions to AVMHS officers, committee chairs, project leaders, or the editor of *Veterinary Heritage*? On its inside back cover, those hardworking volunteers are listed for easy contact. They welcome your aid with fresh ideas, willingness to assist with activities, or, for example, even small gifts of money to help buy plaques for Heritage Veterinary Practices.
